I AM THE RESURRECTION AND THE LIFE

Jesus makes His greatest claim, “I AM the resurrection and the life; the one who believes in me, even if he dies, will live and whoever lives and believes in me will never die.” This statement manifests Jesus’ present and future sovereignty over believers. Eternal life starts in this life and is stronger than death. Our connection to Jesus means that physical death has no power over us as believers. As such, our future must be determined by faith in Jesus and not governed by the certainty of death. It also means that our present is determined by Jesus’ power of life and His gift of eternal life. Death doesn’t change our relationship with God. Our relationship with God changes death! However, much of our lives can be spent chasing after things that pass away and don’t last. Those are the temporal concerns of this world, and they take up a lot of our time and energy. When we allow those concerns to dominate us, then we have allowed our lives to be defined by death rather than eternity with God. Fr. Peter

40 DAYS FOR LIFE.
THE BEGINNING OF THE END OF ABORTION.

We hope you can come meet Robin Sertell, an abortion survivor and nationally recognized speaker at our closing ceremony on April 2nd at 2pm. We will be hearing Robin share her story in front of Planned Parenthood on the sidewalk area. She will have her books available to purchase.

Thank you for sharing your time and love to help save the preborn and to help families heal from abortion. God bless you and hope you can come walk with us as we still need volunteers from 8am to 6pm, Monday through Saturday.
